

EDUCATION

B.S. Computer Engineering (expected), CNU College of Engineering — Mar. 2021 - Feb. 2027
Minor, Japanese Language & Literature, CNU College of Humanities — Mar. 2026 - Feb. 2027
GPA 3.98/4.50 (CSE 3.81/4.50; JLL 4.10/4.50)

PROJECTS

 Problem  Action

Algorithm Contests

Sep. 2023; Mar., Jul., Sep. 2024;
Mar. 2025

Problem Setter and Lead Organizer

Founded the CNU PIMM Algorithm Party during military service as a Baekjoon open contest; set problems for 3 and led 4 of 5 contests, including the 2024 GIST Algorithm Masters.

In-house Editorial Typesetting Tool — shapelayer/turbo-waffle

 During military service, needed editorial PDFs that rendered consistently on PCs with a tightly controlled software environment^{†Harmony OS}.

 Built a CLI tool that applies predefined layouts to Markdown and renders PDF files.

Node.js Puppeteer Nunjucks

Markdown → Codeforces Polygon Statement Converter — gfm2polygon-statement

 Repeated manual conversion between Markdown for writing statements and Polygon’s verification syntax caused bottlenecks and missed edits.

 Modified cmark-gfm to build a C++ library and web app.

C C++ cmark-gfm WASM

AI-Abusive Submission Detection Research and Report

 Blatantly AI-generated answers despite a no-AI rule, with no detection protocol or relevant prior research.

- » Modeled anomalies from submission intervals, diff size, and programming-language changes.
- » Compared submissions with multi-LLM control answers using GraphCodeBERT embeddings.

GraphCodeBERT

KTAS Trainer

Sep. 2025 - Sep. 2026

“Development and Effects of a Disaster Nursing Competency Program Using VR-Based Mass-Casualty Emergency Patient Simulation”

- » Developed an educational simulation to the specification of a Unity-based 3D real-time multiplayer game.
- » Built a GraphView editor for non-developer teammates to edit and test in-game scenarios.
- » Added an MCP server to automate end-to-end gameplay testing.

C# Unity FishNet GraphView ONNX Rust SupertonicTTS CI TypeScript MCP

ACHIEVEMENTS

Director’s Award (Honorable Mention) — 6th CNU Software Programming Contest, 2024

Director’s Award (Grand Prize) — CNU SW Club Discovery & Support Program Final Presentation, 2024

Activities — PIMM, CNU Game Development Club (President, 2024); Stolio, CNU School of AI Club (Founder, 2022)

Special Audit Student, Faculty of Science and Engineering, Saga University, Japan (2025H2)

Languages — Korean: Native; English: Vantage (B2); Japanese: Vantage (B2)

This CV is current as of September 29, 2026.
